JUUstice Washington Organizational News

♦♦♦ JUUstice Washington supports kids' climate law suit. The JUUstice Washington Board of Directors has voted to become signatories on an interfaith amicus brief to be filed on behalf of the youth in Aji P. v. State of Washington. This case has been brought by Washington youth to demand the State take action on climate change and to treat climate change as an issue that belongs within the Public Trust. It was dismissed by the lower courts and is now going through the appeals process and will be filed in either the WA Supreme Court or in the WA Court of Appeals (if the WA Supreme Court declines to hear the case). We will be encouraging and working with WA UU congregations to prepare for and join future briefs in this case. More information can be found at Our Children's Trust.

In similar news, *Juliana v. US* is being heard on June 4th before the Ninth Circuit (Federal) Court of Appeals in Portland, Oregon on June 4th, 2019. In this case, Levi Draheim, an eleven year old UU from Florida, is a plaintiff. "Their complaint asserts that, through the government's affirmative actions that cause climate change, it has violated the youngest generation's constitutional rights to life, liberty, and property, as well as failed to protect essential public trust resources." Our Children's Trust is calling for people to organize events locally and encourages you to mobilize on the day of this hearing. More

See the Climate Justice Act Team section below for more details on UUMFE's PNW speaking tour that will include Levi Draheim, Aly Tharp (UUMFE) and Leonard Higgins (valve turner UU out of Portland).

♦ Victory for Immigrant Rights: Keep Washington Working Act to be signed into law

The Keep Washington Working Act (Senate Bill 5497) enhances public safety and promotes fairness to immigrants and protects the privacy and civil rights of all Washington residents. This new law prohibits local law enforcement from routinely questioning individuals about immigration status, notifying ICE that a non-citizen is in custody, and detaining someone for civil immigration enforcement.

Criminal Justice Reform Action Team

**Reforming Debtors Prison in Washington State makes sense (and dollars!) On a given day in Washington State, up to 50% of the people in county jail are there because they are poor. Cash bail enforces a guilty until proven innocent structure on the poor. It does not have to be this way. JUUstice Washington supported bail reform in the 2019 legislature, but we were not successful at passing the bills. This issue may stand a better chance in the 2020 if we ask our legislators to pay attention to common sense solutions. More
