

Economic Justice (14 Attendees)

Rev. Amy Moses-Lagos facilitated an exploration of current events known to attendees. See attached copy of notes.

Further discussion around issues of concern through an intersectional lens (attached brainstorm) with awareness that all impacted oppression, with wealth accumulation inequalities being tantamount.

Where are the problems:

Regressive monetary and bank policies create racial inequities over time

- State income and capital gains tax/need tax reform
- State banks-lending affects housing availability, wealth accumulation
- LFOs, money bail
- Affluence responsible for second homes

What are some solutions:

- Increase financial literacy
- Raising the bottom and lowering the top %
 - Minimum wage
 - Guaranteed income
 - Jobs guarantee
- Increase access to existing benefits by removing restrictions to eligibility
- Increase public awareness
